

## HydroShield® All Season Gutter Protection

### LEAVES & DEBRIS

HydroShield® protects your homes gutters from falling leaves and debris which can wreak havoc on unprotected gutters.

### RAIN

The average homes roof delivers over 43,000,000 cubic inches of rain water annually that your gutters need to manage. HydroShield's patented design keeps the debris out and even the heaviest rains flowing through your gutters.

### WINTER

Hydroshield can help prevent freezing water and potentially dangerous ice dam issues. By blocking debris, Hydroshield allows water to move freely through your gutters without getting trapped, when it might freeze and cause obstructions in your gutters.

### The Risk of Unprotected Gutters:

#### CLOGGED GUTTERS

It's important to keep your gutters free from debris and free flowing! Keeping your gutters clean from one season to the next is a never ending process and leads to all sorts of unexpected expenses.

#### INJURY

Cleaning you gutters can not only be dangerous, it's a messy job that never ends. According to the Department of Health and Safety, the ladder is one of the most dangerous items in you home.

#### INSECT INFESTATION

Debris and water sitting in your gutters are prime real estate for termites, ants, mosquitoes, and other insects to breed in.

#### OTHER FLYING OBJECTS

Hidden objects of all sorts can lead to clogged gutters. Hydroshield keeps balls, frisbees, and other toys from clogging your gutters.
