

# Special Purpose Models

Blade edges designed to cut special materials

Special Purpose Models of Midwest Snips Kush'n-Kote® forged blade tinner snips are the world's best! We offer four different blade patterns and five different models in this product category. Special Purpose Models have been designed to cut a specific material or provide a specific cutting feature.

## FASTER!

### Cuts "Pinch-Thru-Point"

Precision cuts completely to blade tip end which reduces cutting strokes and enables complete and accurate trim cuts.

## EASIER!

### Stays In Adjustment

Blade pivot bolt is affixed in bottom blade and secured with special locknut to hold blades in adjustment.

## SAFER!

### Quality Tested

Designed to cut a specific material or provide a specific cutting feature.

### Long-Lasting Cutting Edge

Hot-drop forged blades are precision ground and scientifically heat-treated.

### Strong Blades

Hot drop-forged process uses grain structure of steel to produce maximum strength.

### Highest Quality Components

Grade-8 blade pivot bolt is unconditionally guaranteed!

### Comfortable Handle Grips

Kush'n-Kote® textured grips comfort user's hand.

## VINYL SIDING SNIP MODELS

Cuts straight and wide curves. Hot drop-forged of high carbon steel. Special hollow ground bevel edge for cutting vinyl siding, vinyl siding nail lip, vinyl trim, and other soft materials. (Note: Do not use these models to cut any gauge metal or wire.)

MW-P107SV 10-Inch Vinyl Siding Snip  
MW-P127SV 12-Inch Vinyl Siding Snip

## LATHE SNIP MODEL

Cuts straight and wide curves. Hot drop-forged of molybdenum alloy tool steel for increased cutting capacity. Blade edge specifically designed for cutting lathe materials. Bent handles for increased leverage. (Without Kush'n-Kote® handle grips.)

MW-147CBT 14-Inch Lathe Snip

## BY-PASS PRUNER SNIP MODEL

Hot drop-forged of high carbon steel. Precision ground cutting edge. Use to prune trees, shrubs, flowers, etc. and to cut wood building materials such as dowels, carpet tack board, shims, etc. (Note: Do not use this model to cut any gauge metal or wire.)

MW-P930 1/2-Inch By-Pass Pruner Snip

## KNIFTI-CUT® SNIP MODEL

Cuts straight and curves and light gauge wire. Hot drop-forged of high carbon steel. Ideal for intricate cuts in light sheet metal and other sheet materials. Use to reach tight spaces. Cuts cable ties, strapping and soft copper wire. Also handy for stripping wire and opening packaging.
