

Forged Seamer Tong

Strongest of all seamers

Our hot drop-forged seamer tong models are of traditional design. They are the strongest and most durable of our bending and folding tool offering. Throat depth graduations are forged into the jaws in 1/4" (6.4mm) increments for user accuracy. Kush'n-Kote® handle grips provide a secure grip and comfort the user's hand.

FASTER!
Sight Depth Gauges
1/4-inch (6.35mm) intervals.

EASIER!
Kush'N-Kote® Comfort Grips
Comfort user's hand.

SAFER!
Strongest of All Styles
Forged blades and handles.

Longest Lasting
Blades and handles are hot drop-forged of high carbon steel for strength and durability.

Strongest
Hot drop-forge process uses grain structure of steel to maximize strength.

Depth Graduations
Throat depth sight graduations are forged into blade at 1/4-inch (6.35mm) intervals.

Highest Quality Components
Case hardened spring steel hinge roll-pin for exceptional strength and wear resistance.

Comfortable Handle Grips
Thick textured Kush'n-Kote® grips comfort user's hand and provide non-slip grip.
